SUMMARY

Proactive **Full Stack Developer** with +**2 years of experience** developing innovative web applications across diverse public projects such as Wifina, IBC, oDoc, AppartAli and Allo Clients. Pioneered end-to-end development processes, enhancing application performance and user engagement through effective cross-functional team collaboration. Seeking opportunities to leverage expertise in full stack development to deliver cutting-edge solutions and drive technological advancement.

EXPERIENCE

FullStack Developer

SBS Data Factory   **October 2025 – Present, Casablanca, Maroc**

· oDoc.ma – Worked a modern medical scheduling and profile management web app starter using React (Vite + TypeScript), Tailwind CSS, and shadcn-ui, providing reusable components for doctor availability, appointment booking, and patient profiles with a clean, responsive UI and room for integration with back-end services like Supabase.

FullStack Developer

CyberScale   **June 2024 – June 2025, France**

· Built and maintained web applications for public projects including Wifina, IBC, Allo Reflexo, and CyberScale, serving an average of 2,000+ daily active users demonstrating high reliability.
· Orchestrated collaboration between front-end, back-end, and QA teams to elevate application performance by 25% through code optimization and streamlined deployment processes, while ensuring scalability.
· Ensured best coding practices, version control, and application optimization.

Junior Cloud Consultant Intern

CBI   **September 2023 – January 2024, Casablanca, Morocco**

· Assisted in pre-sales activities and provided support in building Microsoft offers for +100 clients.
· Managed Microsoft subscriptions through MWP (Microsoft Subscription Management – CSP), helping customers optimize their cloud solutions.
· Collaborated with clients to understand their needs and provided tailored Microsoft cloud solutions to enhance their business operations.

Junior FullStack Developer

IS-TECH   **July 2023 – November 2023, Casablanca, Morocco**

· Designed and developed interactive web applications.
· Managed application state consistently across complex modules with Redux and Context API.
· Integrated RESTful APIs to extend core application functionality, enhancing user experience and streamlining data flow across multiple modules.

FullStack Developer Intern

Palmeraie Country Club   **July 2022 – September 2022, Casablanca, Morocco**

· Designed and developed a web application for membership and subscription management using HTML, CSS, JavaScript, PHP, and MySQL.
